Mr. Ghio stated that it was difficult to establish a direct correlation to past ridership numbers because the increase in the days of the week and hours of operation this year from past years; it is not like comparing apples to apples.

Mr. Ghio went on to say that there seems to be a surge in ridership recently possibly due to increased population on the beach and awareness of the trolley's extended

hours and days of operation. He stated that after 4:00 p m seems to be highest amount of riders.

Ms. McCay inquired about a poster for the trolleys that included Bands on the Beach.

Ms. Meyer handed an information sheet out to the Sub – Committee members outlining feedback that she had received concerning the trolley's operations on the beach so far this season, she stated that she had spent a lot of time riding the trolleys and had suggestions for future enhancements.

The Sub – Committee members discussed the information sheet at length and addressed some of the concerns regarding the music on the trolley's, the distance between stops on Via De Luna and the possibility of allowing drivers to pick up riders in between, drivers announcing stops, GPS default to Margaritaville.

Ms. Cox asked about the status of the Sirius radio

Mr. Ghio stated that he would contact Next Bus regarding the GPS default and that he would look in to allowing the drivers to stop for riders between stops. He said that the Sirius radio information was being reviewed and would be ordered soon.

Ms. Meyer had several suggestions for future enhancements including placement of a trolley map inside of each trolley and possibly staggering the time that the trolleys begin and end their shifts to allow for later ridership, an example being one trolley running from 9 to 9 and the second trolley running from 12 to 12. She also said that the Sub – Committee that the stops need to be more visible.

Additional discussion followed in which the Sub – Committee members agreed Ms. Meyer had presented some good ideas that would be taken into consideration.

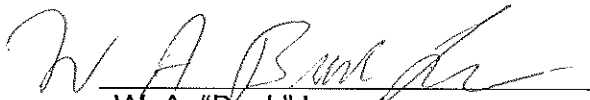

Mr. Ghio stated that he was waiting for Escambia Counties approval the proposed trolley stations; this would govern the color selection for the stop flags.
